When you arrive to pickup...

The process to retrieving your child is extremely simple. Just follow these steps.

1 - Arrive and stop at the sign

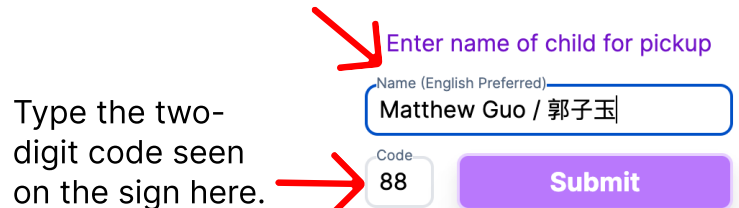

A volunteer will bring out a sign with a two-digit code on it every day. Stop your car at this sign.

2 - Input names and the code

Type your child's name here.

If there are multiple children, just type all of their names in the field.

3 - Tap the Submit button and pull up

Pull up to the front and your children will appear shortly.

If you encounter problems, refresh and try again.

In case you are still unable to submit, someone will take your name when you pull up.
